

ROADWARRIOR™ 3

THE COMPLETE MOBILE SCANNING SOLUTION

The **Visioneer® RoadWarrior™ 3** is the perfect mobile scanning solution for users who need to scan a wide variety of documents regardless of where they are.

Weighing a little more than a 12 oz bottle of water with dimensions similar to a rolled up magazine, it packs easily in a laptop bag and is powered by the USB port so you can scan anywhere – even when AC power is unavailable.

Scan

With the RoadWarrior 3, you can scan your receipts, business cards, magazine articles, newspaper clippings and even photographs – fast. This versatile compact scanner will handle any document up to 8.5" (216 mm) wide and 32" (813 mm) long and convert to PDF, JPG and most popular file formats.

The RoadWarrior 3 produces clear and sharp scans of any document, in color or black and white. Worried that your highlighted notes from the meeting won't scan clearly? What about the receipt that was folded in your pocket? Real world documents are never a problem for the RoadWarrior 3. Visioneer Acuity technology enables the scanner to instantly improve the visual clarity of every scanned image. You get perfect scans from imperfect originals.

Organize

Why wait until you get back to the office to organize that stack of paper in your briefcase? After all, it's not the paper you want to keep; it's the information on the paper that is important. RoadWarrior 3 includes a powerful suite of bundled software designed to help you organize and find the information important to you.

Share

Once all of your papers are scanned and organized, you can easily send them and share the valuable information they contain with your team, clients or headquarters. When you scan documents into a searchable PDF format, that information can be shared with anyone and quickly found later when it is needed. Much easier and faster than sorting through that stack of crumpled papers in the bottom of your briefcase! So, what are you waiting for? This is one travel companion that you want sitting next to you. And it will never ask to share your snack while you're in flight.

Scan receipts, business cards, documents, and handwritten notes.

Organize your documents and leave the paper behind.

Share your scans and information via searchable PDF files.

USB Powered:
No AC power connection needed to use the RoadWarrior 3 scanner

The pull-out paper guide directs original sheet up and towards the user, making it easier to take out and not have it fall behind a desk.

RoadWarrior™ 3 Includes These Software Solutions

Visioneer Acuity

Visioneer Acuity enables your scanner to instantly improve the visual clarity of the scan, plus auto-crop, auto-straighten and auto-rotate, all with the touch of a button.

Visioneer OneTouch

OneTouch connects your scanner with a powerful set of settings so that with one touch the scanned document is automatically sent to email, your printer, a file folder, or to one of many cloud destinations.

Visioneer TWAIN™ DriverPLUS

DriverPLUS offers an impressive array of settings to enable precise customization of the scan – far beyond current TWAIN specifications and user experience. DriverPLUS also delivers Parallel Scanning, allowing multiple same-model scanners to be connected to a single PC and run concurrent jobs. Visioneer Acuity integration adds intelligent image enhancement and PC Optimization to enable full-speed scanning.

OCR and PDF Software

This leading, easy-to-use OCR application reduces the need of retyping and paper storage, precisely preserving the original document's layout and formatting while converting your scans into various file formats, including searchable PDF. PDF features allow you to create, convert, edit, assemble, and share PDF files. The resulting text can then be used in virtually any word processing, desktop publishing or web publishing program.

Desktop Document Organizer

To simplify managing your scans, a desktop organizer application combines the efficiency of document management with convenient access, viewing, editing and conversion of your scanned documents. Gain a new level of control and productivity in managing and sharing your scans.
