

NEWS for Immediate Release

Visioneer Mobility Receives Multiple Awards and Recognition

New cordless mobile scanner recognized for being “revolutionary”, “intuitive” and “awesome” by editors of top IT publications.

PLEASANTON, Calif., May 18, 2011 – Visioneer, Inc., a leader in intelligent document imaging solutions, today announced that the Visioneer Mobility is the recipient of the PC Magazine Editors’ Choice [Award](#), received a perfect 5 out of 5 star rating from Network World Magazine, an 8 out of 10 rating from Mobile Magazine, and Editors Choice award from [Businessinfo Magazine](#) and extremely positive reviews from CRN Magazine and [Inventor Spot](#).

According to the [PC Magazine review](#), published on March 31, 2011, “the Mobility is way out in front of everyone else. Being able to see your scans on the spot, as long as you have a smartphone, is a big plus for scanning without a PC, and the high scores (for a portable scanner) for optical character recognition, document management, and business card management puts the Mobility in a class of its own in any case. If you need a portable document scanner, make sure this one winds up on your short list.”

The [Network World review](#) stated, “The cordless nature of the scanner and its ability to scan directly to memory cards without needing a connected PC opens up opportunities for scanning where they didn’t exist before (mobile workers, field workers). On the consumer side, the scanner is an awesome way to take the shoe box or photo album filled with pre-digital camera photos and digitize them (for posting on social networks or just to store them in the cloud).

In addition to Network World, the [CRN Test Center](#) and [Mobile Magazine](#) had high praise for Mobility.

- “Visioneer’s revolutionary mobile scanner is straightforward, intuitive, and can scan a full color document in three seconds flat. The device is positioned well to revolutionize mobile document imaging for several reasons, according to an evaluation by the CRN Test Center.”
- “For the first truly portable scanner to hit the market, Visioneer did a fantastic job. Speed and accuracy are what you would expect from a portable scanner,” stated the review in Mobile Magazine.

Visioneer Mobility is a cordless mobile scanner that functions without a computer, cables, or drivers and scans directly to an SD card or USB memory drive. Users simply press the power button, insert SD or USB memory, press the selector button to choose document type and insert a document or photo. Mobility is also the first mobile scanner that can scan directly to smart phones including Android™, Windows® and BlackBerry®. Visioneer Mobility instantly digitizes documents, photos, plastic ID cards and more into one of three file formats: color PDF, black and white PDF or color

PRESS RELEASE: Experience the Freedom of True Mobility with the First Visioneer Cordless Scanner/2

JPEG. Scanned items can be saved to an SD memory card or a USB flash drive. After scanning items, users can simply eject the removable memory and insert it into any computer with a SD or USB slot, whether Windows, Mac, or Linux. Visioneer Mobility is recognized as a storage device when attached to a computer, so the scanned files can also be easily copied to the hard drive with an included cable.

Pricing, Availability

Priced at \$199.99 US List price the Visioneer Mobility comes complete with the 2 GB SD memory card (an SD adapter with microSD card built in to work with smartphones and tablets that accept microSD cards), rechargeable battery, recharging/data cable and AC wall adapter, protective carrying case and DVD that includes a user manual & bonus software. It is currently available through online channel partners and major resellers.

About Visioneer

Visioneer provides a broad range of scanning solutions for the desktop, distributed and departmental document imaging markets as well as the mobile and remote business scanning segments. In 2003, Visioneer combined its leading scanner technology with the Xerox brand recognition to develop the Xerox® DocuMate® product line. Visioneer and Xerox DocuMate high-performance business scanners and imaging software solutions offer users speed, image quality, advanced paper handling and ease-of-use with exclusive Visioneer OneTouch® technology. For additional information on Visioneer and Xerox scanning solutions, visit www.visioneer.com, www.visioneer.com/company/news or www.xeroxscanners.com. For open commentary and industry perspectives visit <http://www.facebook.com/visioneerinc>, <http://twitter.com/visioneerinc>.

Visioneer offers both product lines under a single reseller partners program. The 20/20 Perfect Vision program optimizes VAR margins and sales opportunities through volume incentive rebates, sales support and marketing tools. Additional information can be found at www.visioneer.com/2020.
